AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. In this listing of claims, claims 4 and 14 have been amended.

Listing of Claims:

1. (withdrawn) A method for presenting a wagering interface for interactive wagering comprising:
 - presenting a display of odds for a race, wherein the display shows odds for less than all of the runners in the race at any point in time; and
 - rotating over time the odds shown in the display so that all of the runners in the race are displayed over a window of time.
2. (withdrawn) A method for interactive wagering, comprising:
 - receiving a selection of a multi-race wager from a user;
 - displaying horse selections for multiple races based on the multi-race wager; and

receiving selections of horses for the multi-race
wager in an order selected by the user.

3. (withdrawn) A method for interactive wagering,
comprising:

receiving from a user selections of multiple
players in an interactive wagering system;

enabling the user to toggle an authorization
status of each player such that each player is authorized or
unauthorized;

enabling the user to toggle each player on or off
if the player is authorized; and

preventing a player from subsequently appearing
in a list of potential players if that player is unauthorized or
off.

4. (currently amended) A method of providing a user
interface for interactive wagering, comprising:

receiving a selection of a default wager from a
user; [[and]]

~~automatically placing~~ displaying default
selections for a new wager based on the selection of the default
~~wager on behalf of the user;~~

providing the user with an opportunity to change selections for the new wager from at least one of the default selections to another selection; and
providing the user with an opportunity to place the new wager.

5. (withdrawn) The method of claim 4, further comprising receiving a selection of a track to be a default setting of the default wager.

6. (withdrawn) The method of claim 4, further comprising receiving a selection of a bet type to be a default setting of the default wager.

7. (withdrawn) The method of claim 4, further comprising receiving a selection of a bet amount to be a default setting of the default wager.

8. (original) The method of claim 4, further comprising receiving a selection of a previously selected track to be a default setting of the default wager.

9. (withdrawn) The method of claim 4, further comprising receiving a selection of a previously selected bet type to be a default setting of the default wager.

10. (withdrawn) The method of claim 4, further comprising receiving a selection of a previously selected bet amount to be a default setting of the default wager.

11. (withdrawn) A system for presenting a wagering interface for interactive wagering comprising:

control circuitry that presents a display of odds for a race, wherein the display shows odds for less than all of the runners in the race at any point in time, and rotates over time the odds shown in the display so that all of the runners in the race are displayed over a window of time.

12. (withdrawn) A system for interactive wagering, comprising:

a user input device that accepts user inputs; and
control circuitry that receives a selection of a multi-race wager as one of the user inputs, that displays horse selections for multiple races based on the multi-race wager, and that receives selections of horses for the multi-race wager in any order desired by the user.

13. (withdrawn) A system for interactive wagering, comprising:

a user input device that accepts user inputs; and
control circuitry that receives selections of
multiple players in an interactive wagering system as some of
the user inputs, that enables the user to toggle an
authorization status of each player such that each player is
authorized or unauthorized, that enables the user to toggle each
player on or off if the player is authorized, and that prevents
a player from subsequently appearing in a list of potential
players if that player is unauthorized or off.

14. (currently amended) A system of providing a user
interface for interactive wagering, comprising:

a user input device that accepts user inputs; and
control circuitry that receives a selection of a
default wager as one of the user inputs, ~~[[and]]~~ that
~~automatically places~~ displays default selections for a new wager
based on the selection of the default wager on behalf of the
user, that provides the user with an opportunity to change
selections for the new wager from at least one of the default
selections to another selection, and that provides the user with
an opportunity to place the new wager.

15. (withdrawn) The system of claim 14, further comprising control circuitry that receives a selection of a track and uses the track as a default setting of the default wager.

16. (withdrawn) The system of claim 14, further comprising control circuitry that receives a selection of a bet type and uses the bet type as a default setting of the default wager.

17. (withdrawn) The system of claim 14, further comprising control circuitry that receives a selection of a bet amount and uses the bet amount as a default setting of the default wager.

18. (original) The system of claim 14, further comprising control circuitry that receives a selection of a previously selected track and uses the previous selected track as a default setting of the default wager.

19. (withdrawn) The system of claim 14, further comprising control circuitry that receives a selection of a previously selected bet type and uses the previously selected bet type as a default setting of the default wager.

Application No. 09/729,484
Amendment Dated February 23, 2004
Reply to Office Action of November 26, 2003

20. (withdrawn) The system of claim 14, further comprising control circuitry that receives a selection of a previously selected bet amount and uses the previously selected bet amount as a default setting of the default wager.
